## **MODEL 13a**

### **Model 13a**

#### **Gater Grapples Skid Steer Mounted Concrete & Asphalt Saw**

Gater Grapples' new CS240 skid steer mounted Concrete and Asphalt Saw is the ideal attachment for contractors and municipalities engaged in underground utility work, road and parking lot maintenance, driveway, sidewalk and foundation repair. Working from the comfort and safety of the cab, the operator commands a 24" diamond blade capable of making a 10.5" deep cut in concrete or asphalt. A 25 gallon water tank with electric pump provides cooling and lubrication for the blade. To assist the operator in maintaining the proper blade speed, the cab controls are equipped with an RPM Monitoring System allowing the operator to make necessary adjustments to the feed rate/travel speed. The CS240 features 24 inches of horizontal travel to position the saw close to curbs and foundation walls.

#### **SPECIFICATIONS:**

Maximum blade diameter: 24 in. (609.6 mm)

Maximum depth of cut: 10.5 in. (266.7 mm)

Coolant capacity: 25 gallons (95 liters)

Motor type: High efficiency piston motor

#### **FEATURES & STANDARD EQUIPMENT**

24" diamond blade

25 gallon water tank with pump

Adjustable depth control

Adjustable speed control to accommodate smaller diameter blades

24 inches of horizontal travel

Cab controls with RPM Monitoring System

Universal skid steer mount
