MODEL 19

Model 19 Gater Grapples Screw Pile Auger

An innovation from Gater Grapples. This unit helps drive helical screw piles to engineer specification. Comes equipped with monitoring screen and the ability to preset torque. Comes with a variable speed drive for working with varied soil density and composition. Has an in cab controlled mechanical lock to release the helical pile once driven without the operator leaving the cab.

Specifications:

- 12000 Ft/lb of torque
- Fixed style driver
- 180 degrees fore and aft movement
- 180 degrees side to side movement
- Variable speed drive
- In cab angle display
- In cab torque display
- Presettable torque stop
